

Wedding Wellness Spa Packages

Indoors, arriving through the new impressive Spa Reception, One would enter the existing and totally renovated Indoor Pool.

The design of the new Spa is in the style of classical Roman baths featuring a central dome. This unique design reflecting relaxation, and treatments of the past, it comprises state of the art installations which would cater for the most discerning tastes.

The Spa Facilities are complimented with a wide range of treatment rooms and a wonderful relaxation area where soft music would enhance the subtle low lighting of these areas.

A wide range of unique exotic treatments will lead you to a timeless experience.

A steam-room “a la – carte”, an Oriental Rasul and a modern Sauna, create relaxing atmospheres, preparing the body to receive new sensations. Coming along with the beneficial effects of water, aromas, music and color combinations, will enhance the body’s awakening of senses.

Discover the benefits of hydrotherapy either, in the “Aqua – Treat Pool” where series of carefully positioned underwater jets offer 6 different treatments, or in the hydro bath “La Dulce” with 240 jets separated in 6 different anatomic zones combined with chromo therapy.

“It feels like floating between clouds”. The feeling of weightlessness experienced in our “Lydo” floating bed creates a deep relaxation of body and mind and optimizes the action of wrapping treatment products.

We invite you to our spa escape for a time in order to rediscover yourself. With the signature of Thalian & Thalisans you will travel from one world of beauty to another, you will hear the needs of your body, revisit the sense of touch and finally achieve harmony. During the treatments, tensions fade away your body feels lighter and the skin becomes soft and radiant.
